

# Life Strategies Feature of the Month: December 2012-2

## World Vision Christmas Donations

Each Christmas, our employees, associates, and instructors donate to World Vision in lieu of exchanging gifts. World Vision is a charitable organization perhaps best known for their child sponsorship program. Their long-standing international programs support community development, disaster management and response, and advocacy and public engagement. In Canada, World Vision has also played an active role ensuring child well-being through programs targeting families most vulnerable to poverty.

We typically like to focus our donations on items assisting women and entrepreneurs, as well as Canadian children and/or communities. Due to arrangements with corporate partners, World Vision is often able to provide “gifts” that multiply two times, three times, and even four times making it possible to maximize the impact our donations can make.

We welcome donations from our colleagues, students, and associates.

January 2013 - update:

Together, we were able to provide a life-saving phone for a healthcare worker, a community savings kit, food for starving families for 60 days, and school supplies for 2 Canadian children.
