

LearnOnline Site Gets An Upgrade

New Ways to Stay Connected with Life Strategies

To help ensure the [LearnOnline](#) site's functionality, we have upgraded our Moodle site. The upgrades are mostly administrative which means you won't notice too many changes in the structure and layout of your course. You will, however, notice some slight changes to the look and feel (e.g., some colours) of our course site with the most noticeable change being the course activity and resource icons. To assist you during this transition, here's a quick snapshot of the old / new icons.

If you run into issues or have questions you can contact us through email at techsupport@lifestrategies.ca. If you need to get in contact with your instructor, please do feel free to email them directly.
