

Life Strategies Feature of the Month: October 2012

Become a *Look Before You Leap* Facilitator

Are you a facilitator looking to add self-employment to your training roster? Can't invest the time or money to develop a self-employment course and/or resources from scratch? Life Strategies Ltd. has a solution for you! Become a ***Look Before You Leap*** facilitator and gain access to self-employment materials developed in partnership with the Canadian Education and Research Institute for Counselling (CERIC) as part of the ***Look Before You Leap: Self-Employment Survival Strategies*** project.

The ***Look Before You Leap*** course and supplementary resources are designed to directly support individuals considering self-employment, as well as the newly self-employed. The flexible course design permits facilitators to instruct online and/or in-person.

There are three instructor categories:

1. Life Strategies Instructor:
These instructors are contracted by Life Strategies Ltd. for a specific section of the course. Life Strategies schedules the dates, markets the course, and sets up course site or arranges the classroom for an in-person or blended course. The instructor is responsible only for course instruction (i.e., facilitating discussions, marking assignments, responding to student questions). The Life Strategies' instructor pay scale applies.
2. Associate Instructor:
These instructors contract with Life Strategies Ltd. to use the ***Look Before You Leap*** curriculum and online learning management system, if applicable, but select their own dates for the course, market it, register students, collect course fees, and instruct the course. Life Strategies Ltd. will set up the online course site and provide limited technical support to the instructor and students. A royalty structure (30% of student fees) applies for use of the curriculum, books need to be purchased from Life Strategies, and, if using the online system, an additional 20% of student fees applies for course set-up, take-down, and limited technical support.
3. Independent Instructor:
These instructors pay royalties (30% of student fees or an equivalent amount) for use of the ***Look Before You Leap*** curriculum and purchase the workbooks from Life Strategies Ltd. Other than that, they run the course independently without any support from Life Strategies.
